Position

Mackenzie's Multi-Asset Strategies Team is responsible for managing asset allocation for a variety of large multi-asset portfolios. The Team also manages quantitative strategies used for equity alpha, global macro, and liquid alternative portfolios.

Mackenzie Investments is currently hiring an intern for Summer 2026 (May – August) to work in Quantitative Research with the Multi-Asset Strategies Team. The candidate will be responsible for supporting our portfolio managers and the research team as they work with quantitative models that drive asset allocation decisions and liquid alternatives portfolios.

Responsibilities:

- Conduct research, build and enhance decision-making tools, and back test investment strategies
- Support our PM's and researchers, gaining practical insights into major asset classes such as stocks, bonds, currencies, commodities, and the macroeconomics linkages to these assets.

Requirements:

- Exhibit strong academic performance, undergraduate backgrounds in Compsci, Engineering, Commerce, Economics, or Math
- Possess programming skills (e.g. Python, C, Matlab)
- Practical experience working with large datasets would be considered an asset

- Demonstrate a strong interest in financial markets with an ability to interpret economic news and market conditions
- Knowledge of statistics, econometrics, and related forecasting techniques
- An independent thinker, curious, with strong problem-solving skills and the ability to think creatively
- Demonstrates strong attention to detail with an ability to produce quality work with a high degree of accuracy
- Possess excellent skills with Excel and practical experience with large and complex spreadsheets
- Demonstrates strong interpersonal skills and applies solid verbal and written communication skills.
- Ability to work well in a remote or in-person team environment

To apply, please include a resume and transcripts (full unofficial version) by September 21, 2025 at 11:59 pm EST.
